```
{ "name": "Kamala", "age": 61, "hair": "black", "morals": 1 }
{ "name": "Donald", "age": 79, "hair": "orange", "morals": 0 }
```

XML (Extensible Markup Language) : Looks like this:

```
<?xml version="1.0" encoding="UTF-8"?>
<audience>
  <student>
    <name>sheila</name>
    <department>Sculpture</department>
    <hair_color>pink</hair_color>
  </student>
  <student>
    <name>Rosa</name>
    <department>SIM</department>
    <hair_color>blonde</hair_color>
  </student>
  <staff>
    <name>max</name>
    <department>SIM</department>
    <hair_color>salt and pepper</hair_color>
  </staff>
</audience>
```
